BASIC WEBSITE PACKAGE

VERNAMYERS.COM

Verna Myers

We launched www.vernamyers.com at the end of July 2020 and you can see the ranking trajectory since. It went from zero to an ave of about 1,200 users. This was a basic package and you can see how well the website responded to Technical SEO integration. The basic package can be used for websites who want to compete nationally but it just won't be strong enough or comprehensive enough to be completely optimized, but it's a great start!

Client Testimonial

WOWEBSITES has an incredible team. We had a rather tedious project that required a lot of hand-holding and revisions to get us and our messaging in the right space. The team was able to help us identify the best keywords to help position our services within a very competitive space and then guide us in curating the appropriate path for the look and feel of our site. The team was always very accommodating and patient with all the required updates and additions; response time was incredibly fast as well. We're absolutely thrilled with the design of our new website and with how quickly it started ranking on the first two pages of Google. The team at WOWebsites is truly knowledgeable and easy to work with. I highly recommend their services.
